

## PROJECT DOCUMENTATION GUIDELINES

### Project Name

Char - Charity Organizer

### Storage Location and Organization

All files will be located and stored on our project GitHub page

Folders on our GitHub page:

Project Documentation - contains required project documentation

Scrum Documents - contains presentations and required documentation for team/instructor scrums

Vlog Presentations - contains presentations used in project vlogs

### Naming Conventions

All project documentation and presentation files (uploaded as PDFs) will use the following naming convention:

Char - [documentation/presentation name]

Ex. Char - Project Roles and Responsibilities

All code related files will use a camel case naming convention with file names relating to the class included in the file.

Ex. CharityData.java

### Document Versions

At this time, no documents will require multiple versions.
